

MILLENNIUM ULTRA WITH SUPREMA BIO-ENTRY INTEGRATION

Fingerprint gateways for a more complete security solution

The Millennium Ultra Access Control platform integrates with multiple BioEntry readers from Suprema to provide a combination of superior access control security system and industry leading biometric entry reader technology solution. You can now integrate biometric functionality into your access control solution by combining the BioEntry hardware from Suprema with the world class access control software management system from Millennium.

BioEntry W exquisitely blends benefits of IP access control system with high-level security provided by fingerprint biometrics. Featuring vandal-resistance structure and IP65 rated structure, BioEntry W is ideal for outdoor installation with offering exceptional durability under harsh environment. With its extensive communication interfaces and PoE capability, BioEntry W is truly the ultimate outdoor fingerprint access control device.

Suprema BioEntry W2 is a rugged fingerprint access control device featuring Suprema's next generation biometric technology and security platform. Packed in a rugged IP67/IK09 housing with sleek metallic finish, BioEntry W2 is a perfect access control solution for tough environment and outdoor installation.

BioEntry Plus exquisitely blends the benefits of an IP access control system with the added security provided by biometrics. It is the base of Suprema's IP fingerprint product line and a good indoor solution to any system requiring fingerprint technology.
